*Parent Participation - We need your help to foster the religious growth of our children*

The religious education of our children and youth is a cooperative effort drawing on the time and resources of the R.E. Committee, teachers, parents, and the whole congregation. Young people and adults are partners in learning and growing. When you register your child(ren), you also register yourself in this cooperative venture. The expectation is that each parent active in our congregation will participate in the R.E. program in a significant way each year.

There are many ways you can get involved. In what way(s) would you be able to participate?
